Serge Mulleners

President's Word

Falnuée

May 26th, 2023

A new lay-out and 2 new holes on this very diversified course, every hole is different making it very attractive in this really beautiful environment . The first tee is now on the upper part of the course and hole N° 2 has become a difficult par 4 (iso of par 5).

The former first holes are now the 10th and 11th. Then 2 new holes are created but maybe not ready yet to be played on, too young, no dense gras on their fairways The greens are modified and especially the brand new hole 12 has a new design with an horrible green and bunkers with

thick sand nearly unplayable. The following hole is now a small par 3 of 115m but also not "mature" enough.. Apart of these two holes, the course was superb. Maybe the greens too hard but it hasn't rained since many days, no pitch mark to be repaired.

A sunny day but a cold Northerly wind, especially on the higher part, was very nasty. Later we were more protected and a polo was enough. On the terrace it was excellent and warm for the prize distribution and the dinner.

Buddha did his job again except for the cold wind so someone suggested we find a female Buddha companion to give him an extra motivation.

23 members and 1 guest (Alain Esch who becomes now officially member) were present.

Mr. Serge Mulleners and Mike Minne sponsored the event but the latter couldn't be present having a lot of work to prepare a youth tournament in his club.

Next competition is at Le Zoute sponsored by the Swaelens Family. Everything is prepared and on the starter's list you can add in the last column whether you take the gambas or a meal. Jean Croo will be there to confirm this.

Green fees (45€) must be paid in cash to him please. Please try to have the exact amount, thanks !

Tee off times between 10.30 -12.30 but if more needed, then a few more can be added. Do NOT forget that tie and jacket are mandatory.

Also the obette at the 9th green will be especially open for us (as usual, it is a day off for the tenant), so please and in agreement of our Cpt, take a 10 minute break and consume something.

See you numerous on the 12th.

Patrick Swaelens

Pick a target.
How is not important.
What's important is that the target be small and precise

Look at the target, look at the ball and swing .

The important thing is that you know the ball is going to the target.
If you can't make yourself believe it ,
pick another club or another target until you can .

DON'T ,
the brain at some level, cannot seem to understand the word "don't" .
