

sabena Golf Group *Newsletter*

Season 2026 started in lucky weather conditions again. Heavy rain the day before and the next day but very golfing conditions Friday. Quite cold in the morning, around 3°-4° but later the temperature gently increased and became more comfortable.

23 players on the field which was in very good condition for this period, in despite of previous winterly bad weather. The courses La Bruyère & Le Quesnoy are build on sandy ground, draining the water much easier. Fairways were in very good condition, no water patches and the greens really fast.

The course and rough were very well maintained but unfortunately not the yellow tee boxes.

Only sand, even with 2 club lengths behind the boxes it was very rare to find some grass. The white and blue were perfect but not the yellow, really a pity.

We were very happy to see Dany Payeur (former VP) back amongst us and... in top condition after recovering from some surgeries at a shoulder among other.

Also Gauthier Tremouroux (former -severe (joking) Cpt) was joining for a relaxing walk with my flight. He also had some back surgery and doesn't want to take any risk anymore playing golf as we all know that it's not really good for one's back.

Our treasurer Mark also accompanied from the 8th on.

Willy Heymans, widower of Eliane Lambert, renewed his membership after several years of absence and played his first competition on Friday.

Also Yves Socquet is returning again and a former Sabena Flight Attendant Karinne Delacoelette will be applying soon.

Sponsor was SNGG offering wine bottles chosen by our Secretary JL Bridoux.

Then, Yves presented the results of the day. As usual the atmosphere was really on top again.

Note : Before prize giving we discussed about a rule concerning the ball being displaced by a robot lawnmower. I checked the R & A rules and here is the answer.

Ball Lifted or Moved by Outside Influence

- There is no penalty, and
- The ball must be replaced on its original spot (which if not known must be estimated) (see Rule 14.2).

Thanks for reading,
Patrick Swaelens
