L'Empereur

30th of June 2026

26 players on the fields at this mountainous and tiring course. As most of us are not that young any more, 2 out of 3 hired a necessary buggy, which is a very logical and wise decision here.

It is very beautiful but challenging and a difficult "playground". The course was in excellent condition after last weekend's storm, the greenkeeper and his team cleaned over 90% of the damage.

I noticed and heard from members that the greens were not as fast as the practice putting green, so most were surprised and had difficulties with them, but after a few holes we adapted our putting style to coop with this situation.

A bigger problem were the clovers!!! Many lost balls due to its density and when you found your ball, then one needed iron wrists to get out of them, so dense they were.

Nevertheless, the scores were very high considering the difficulty of the course. Some flights needed about 5h30 to complete the round which is a bit long.

Thomas Francis played again after some medical issues and will be re-joining our group, also Mr. Vergouts very soon a new member was introduced by Janick Legros. Marc Welby told us that Pascal and Florence Dias, members of Rigenée, were interested too.

We were extremely lucky with the weather, a very nice golfing 24° compared to the exceptional twelve days heath wave with seven of them over 30°. The comity followed constantly the temperatures days ahead to check the conditions of Tuesday 30th of June and was eventually considering cancelling this meeting if the temperature would again climb or stay over 30°. But we were dawn lucky and the forecasted rain a week before disappeared also.

The table with prizes was totally filled by the sponsors Tina and Janick Legros, President of L'Empereur who introduced the other sponsors Alain De Nys (GMT Chronographs), Vincent Doumont (bières Waterloo), Odette Vincks & Albert Delvaux (chocolaterie La Cabosse d'Or). With this exceptional sponsoring many lottery prizes were offered, Watches, champagne, chocolates and so on, really enormous.

The BBQ started only at 20.00 after everyone had taken a welcoming shower and the food was exceptionally good. All thirty guests were really enthusiastic about the quality and diversity, with wine and water included for only 49€. A big applause was given to the cook and crew.

Exceptional atmosphere the whole day through, one of the best we had since many years especially during prize giving with Janick's funny and comical comments. As Schwarzenegger would say: "We will be back". Two very happy Presidents.

Next meeting is at Mont Garni with the traditional Captain's Cup in a special formula (Top Secret -CIA or KGB don't even know, haha). Yves will compose the teams himself. Keep checking the starterlist.

See you all at Mont Garni.
