Mormal 4 Sept. 2026

Damn good weather again. JJ & Lieve's Buddha is excellently doing his job, he must appreciate being rubbed or caressed on (around) his belly. Who wouldn't ??? There was a short heavy rain shower ... when everyone had already finished the "apples" course. Temperature was an excellent 22° with sometimes a few gusts but a polo was enough.

The course was in good condition, only a few brown spots on the fairways. The first rough very playable but the adjacent was not an easy task. The greens, very good, really fast and surprised us in the beginning. A few of us played Mormal for the first time and told me they also appreciated the course very much. So, may again be on the next year's schedule, even after more than 15 years. Note that it is our former Vice-President Alain Carbonez who "discovered" this course and since then it is, I think, yearly on the program.

The same day there was a seminary in the clubhouse with 120 guests, so it was very crowded and the restaurant was reserved for them, meaning no way to have diner in the evening. It should have ended around 16.00-16.30 but people of every country are the same on many aspects. So many stayed much longer ... the drunkards! And they made a hell of a noise, but we sometimes did the same thing too, no? And for info they weren't "airline crew" !!!!

For prize giving we had to move upstairs to have some privacy with less noise and shouting, all turned out ok.

Note that the bar crew was very cooperative with us although the crowd, and they could manage to bring the drinks to us on the terrace before the rain or inside with the many remaining drunkard. So we can't complaint at all.

For info last year there had been a robbery of the bar the day before our arrival. I suppose many remember of this.

During our play and as Guy Rasse announced, he overflowed Mormal twice and "swinged" the wings of his Piper underway to Villaroche- Melun in France. A fantastic yearly meeting of mostly World War II planes in static and airshow. I went each year and had the opportunity to be in the cockpit of planes like Mig15 & Me 262 (for info), it is absolutely worthwhile. Guy will participate with a team of Cups based at Cambrai. Thanks, Guy, for this airshow.

Ok back to business... sadly enough only 20 players present (5 L-6 M1-9 M2) but just enough to benefit from the cheaper 56€ green fee, ouf! One guest, Valérie, the daughter of Mike Minne, playing 9,9 hcp, waw!. She will probably come again and play. Now the last 2 flights of 4 were relatively slow and I want to mention that in the last group Xavier Esch had a great gesture to offer a drink to a couple of British players behind them as they had to wait very often. Congrats Xavier, that's having respect and consideration for the golf.

The sponsor was Pascal Cludts with a very generous table of Spanish wines. He wanted me to talk about the deal he got but I unfortunately never had the time to let him explain. Sorry Pascal and many thanks.

During prize giving, I also apologized for the delay I sometimes cause but many members have questions, suggestions or important information on matters like the Zoute. I always listen to everyone but then it creates some delay, sorry for this.

As our Captain Yves was on a "tracking trip" in Portugal, JJ (Vice-Cpt) took over the duties and succeeded very well with the several changes of the starting list and prize giving. Surprisingly the scores were not very good, apart from some very good ones.

Next competition is the Millennium on the 21st of Sept., then Rigenée on 2nd of Oct.

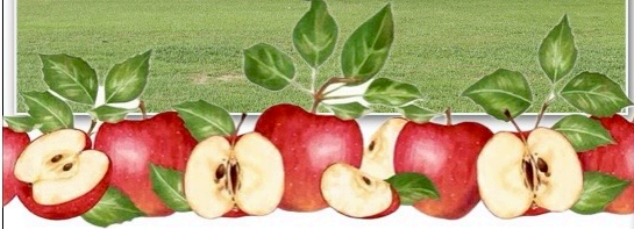

So please we will need the 2025 Summer Trophy's back the latest at Rigenée for engraving, which needs some time.

Patrick Swaelens

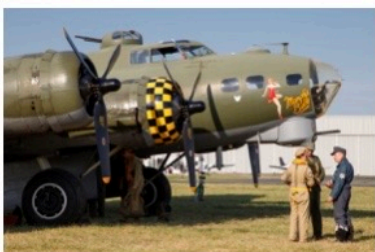

LADIES	① DESMAST NADIA (31)	② DEVIS LIEVE (27)	③ NGUYEN TRANG (20)	④ DEJONGHE M.C (18)	INVITE MINNE VALERIE (34)

Guy Rasse
flying over the Mormal Golf Course
on his way to “Air Legend “
a famous yearly airshow of mostly World War II planes
at Melun-Villaroche airport

Dear members ,

The récent competition at Mormal was a success, and we'll definitely return.

Now, our next meeting will be at

Millennium Golf Club

Monday the 21st of September

“ We hope to see many of you there !! “

Located on an 80 hectares estate by the Paalse Plas, the championship Course curves through oaks, beeches and rhododendrons. Water is everywhere, forcing you into strategic or risky choices.

The constant breeze gives the course an inland links character.

One of the longest in Belgium and a challenge for every skill level.

**MILLENNIUM
GOLF**

27 holes Championship
Course
aan de Paalse Plas,
Limburg, België.
